Dear Sir,

Re: Enhanced Mineral Unit ( EMU )

I recently purchased an Enhanced Mineral Unit manufactured by yourselves. The ability to add three essential minerals (silver, copper, & zinc) to the purification system makes the unit one of the most advanced units on the market and a major contributor to personal well-being.

Water quality in the Melbourne metropolitan area is considered to be high however the enhancements you have introduced are very important.

I am happy for this letter to be used as a testimony for your product.

Yours truly,

Nik Tsardakis  
514 Duncans Road,  
Werribee South Vic, 3030.  
Australia.

December 19, 2000.
