**Re: Silver Colloidal for Ulcer Treatment**

Due to diabetes an ulcer had formed on my foot. I went to my local doctor to seek treatment after numerous attempts nothing seemed to help. The verdict was nothing further can be done.

I met a friend Noel Mc F, who introduced me to Australian Natural Colloids Silver Colloidal. I sprayed their Silver Colloidal directly on to the ulcer two to three times a day. A noticeable improvement was detected within a few days.

It is an amazing product. I would recommend Australian Natural Colloids Silver Colloidal to anyone who required alternative medicine.

To date the ulcer had completely disappeared, to the amazement of the initial treating physician.

I would sincerely thank to Australian Natural Colloids Silver Colloidal had provided me a great product and big relief on my ulcer problem.

Yours sincerely,

**Charlie**
